ABOUT US

We are driven by our passion to see every French person have access to an evangelical church and an opportunity to experience the life-changing Gospel of Jesus Christ, and to see the French Church become a Sending Church.

Our mission is to establish church planting movements through evangelism and discipleship among the secular French, and to use our administrative and project management skills to establish a mobilization office which will equip and send French believers to the mission field.

Every French city, town, and neighborhood is in need of gospel-centered, Spirit-led Christians to plant healthy churches that share the love of Christ in culturally appropriate ways, disciple new believers, and multiply into new churches that do the same.

Jesus said to his disciples, "The harvest is plentiful, but the laborers are few; therefore pray earnestly to the Lord of the harvest to send out laborers into his harvest."

Matthew 9:37-38

Bringing the Light of Christ to the Darkness of France

FRANCE

52% **10%** **30%** **.9%**

Catholic 5% attends Mass Muslim Atheist Evangelical

France is charming and beautiful yet she has a very deep spiritual need and is one of the least evangelized nations on earth. French people have become largely nonreligious and atheistic while Muslims are growing rapidly. There are twice as many occult workers in France than Christian workers. The need for Christian workers has never been greater.

The existentialist mindset of the French finds no meaning in life. We believe that Jesus is the ultimate answer to the meaning of life and the true 'joie de vivre' they seek. France needs communities of people following Jesus to show them a life worth living and we want to help.

There is one church for every 35,000 people in France, but the goal is to plant new churches and one day have 1 church for every 10,000 people. Churches in France are often small and face a lot of opposition, but they are how God's love is displayed. They are like tiny candles illuminating a dark room. Many more need to be lit in order to give the French the light to see.
